HIGHLIGHTS

Fe 550 Grade The best possible variant made to build futuristic structures

Unique 3X Design

Rib on Rib feature, a product innovation which enhances the Steel and Cement bonding.

Ultra Safe

2025

The steel is designed to achieve good UTS/ VS Ratio that gives highest elongation. This makes the steel Earth Quake Resistant due to its superior impact absorption.

Maximum Savings Due to the 3X design, use 9-12%lesser steel and save on your cost of construction

Higher Tensile Strength

Withstands stress like no other bar
